

OF THE OUTDOORS:

# What Caught My Eye At SHOT: Part Two

**GARY HOWEY**  
Hartington, Neb.

For those of you who haven't heard of the SHOT Show, it's "HUGE" with everything from airguns to military weapons and body armor.

If you hoped to cover all of the displays and booths at the four day show, you'd need to run through the show, so these items listed below are just a few of the hundreds of new items that we saw at the show.

**Gary Howey**

houses two hydraulic dampeners, reducing recoil by up to 60 percent—was upgraded to "Kick Off Cubed," which uses a third shock absorber in the stock bolt to further reduce recoil and mechanical stress when shooting the gun.

It also features their new Micro Core butt pad making the gun more comfortable to shoot which also helps the hunter to properly shoulder the shotgun.

For more information on the Beretta A-400 check out [www.beretta.com](http://www.beretta.com).

**Beretta**

Beretta unveiled its new auto shotgun, the A400 Xplor Unico, an extremely fast, light and easy to shoot shotgun.

Their upgraded recoil reduction system will reduce recoil by as much as 70 percent.

It features a shortened receiver, 3 inches instead of 3 1/2-inches decreasing the overall gun length.

Their patented Kick Off recoil-reduction system that

**Winchester Ammunition Ballistic Silvertip Lead Free**

If you're looking for a varmint load with some real knockdown power, you'll want to look into Winchester's Supreme Ballistic Silvertip Lead Free.

With their new fragmenting copper core technology that incorporating a lead-free bullet in their .223 Rem which has a muzzle velocity of 3800 fps and their 22-250

Rem bullet with a muzzle velocity of 4350 fps in the Ballistic Silvertip® line.

These lead-free loads from Winchester and Nosler features a plastic tip, which reduces tip damage, promoting long-range performance with a gilding metal jacket.

The fragmenting copper core of the bullet is engineered so that it will explode on impact.

For more information on Winchester Ammunition go to [www.winchester.com](http://www.winchester.com).

**Russell Outdoors APXg2 Clothing**

If you're looking for a way to stay warm and dry on your next hunt, then you should look at Russell Outdoors APXg2 System.

The APXg2 line is a five-level layering system available in numerous configurations to keep you warm, dry and odor-free. Insulated with lightweight PrimaLoft that will keep you warm without bulking you up.

PrimaLoft insulation was originally designed for the U.S. Army as an alternative to down, a microfiber polyester insulation that's warm

The hydraulic dampeners in the stock of the Beretta A-400 reduce the recoil felt by the shooter up to 70 percent.

and as soft as down as well as being water resistant, very lightweight, compressible and quiet.

It's currently being used in clothing by the military in both Iraq and Afghanistan.

The APXg2 system is available in many of Mossy Oak's camouflage patterns.

For more information on Russell Outdoor Products check out [www.russelloutdoorsgear.com](http://www.russelloutdoorsgear.com).

**Firearms Multimedia Guide**

If you're one of those folks that's always looking for a new gun, well there's a DVD out now that will allow you to check out over 41,000 models of firearms, airguns as well as ammunition from over 345 manufacturers.

The Firearms Multimedia Guide has tech specs along with over 24,000 High Resolution color pictures and prices.

Its 14 different search criteria will help you to find that gun you're looking for in seconds.

You'll have the ability to

find everything from inexpensive air guns all the way up to \$1,000,000 European weapons.

There are even 500 printable targets as well as a US-EU ammo caliber chart available on the DVD.

For more information on the Firearms Multimedia Guide go to [www.firearmsmultimediaguide.com](http://www.firearmsmultimediaguide.com).

**HS Hunter's Specialties Base Layers**

Hunter's Specialties has come out with a new line of odor control clothing featuring their Scent-A-Way Tek 4 system.

Designed and engineered using permanently bonded silver antimicrobial yarns for odor control along with a breathable wicking agent that helps the hunter to be warm when it's cold and cool when it's hot.

Silver, which is the most thermally conductive element on the planet making the Tek 4 engineered to last a lifetime.

Base Layers are available in several weights in both

REALTREE AP HP and Champagne color.

There were so many new items introduced at the show, it would be impossible to cover them all, so these items that I've listed in these articles are ones that I thought readers in our area might be interested in.

From time to time as new products are released, I'll mention them in future articles.

Take Care, Stay Warm and when ever you get the opportunity head outdoors and introduce someone new to all that's can be found in the great outdoors!

Gary Howey, Hartington, Neb., is a former hunting and fishing guide. He's the Producer/Host of the award winning outdoorsmen Adventures television series which can be seen in South Dakota Saturday @ 6:30 am and Sunday @ 7:00 am on KTTM/KTTW-TV (Fox) Sioux Falls/Huron, SD.
