# Case IH Twine and Mesh Wrap ensure hassle-free baling

When the weather's ideal for baling, speed and reliability are critical. Only Case IH Twine provides uniform tensile strength that minimizes tying problems and creates strong tight bales. Select from natural fiber twine or plastic twine. Both are available in a variety of strengths for different bale weights.

Or, choose white mesh wrap that is designed to wrap bales edge to edge, locking in nutrients. You'll wrap bales in just two turns and produce bales that shed the elements!

No matter which type of Case IH Twine or Mesh Wrap you choose, you can trust Case IH quality. Visit our Case IH dealership and talk to us about how we can help make this year's baling season hassle-free.
