Avera Sacred Heart always places a high priority on preventing infection by employing a full-time certified infection preventionist. This and the work of our team has kept the Avera Sacred Heart infection rates among the lowest in the nation.

Surgical infection rates at Avera Sacred Heart Hospital are an astonishing 37 times lower than Centers for Disease Prevention and Control (CDC) expected rates. And we have the expert team to handle the infections that come from other facilities. There is a difference.

Choose Avera Sacred Heart Hospital.
