Senior Data Center Operator

The Senior Operator is responsible for general oversight and support of the operations center. This includes monitoring communications, updating production run sheets, tracking implementations of new processes and reporting monthly billing. The Senior Operator will also attend conversion, de-conversion and merger meetings and instruct the production center operators of new or removed procedures as needed. A self-motivated individual with data processing experience or equivalent knowledge is preferred. High School graduate or equivalent is required. Attention to detail and accuracy and ability to use discretion when dealing with sensitive or confidential data is required. Individual must have knowledge of data processing functions including system utilities, telecommunications, job flow functions and security needs. Position requires the ability multitask while working with minimal supervision. The ability to follow directions and problem solving skills are required. Position requires flexibility to work occasional overtime. Hours may change based on workload.
