

A VINTAGE INSPIRED EMPORIUM SHOPPING DESTINATION

This historic building, known as the First National Bank of Freeman, has seen and heard so much...relishing in the roaring 20's, withstanding the Great Depression, years of change and layers of renovation.

As the layers are removed the rich architectural history is revealed and tells a story all its own. On the brink of being too far gone and condemned, this gem has endured many owners and has been repurposed once again to serve its patrons. Now on the State and National register of Historic Places.

Beautiful hand-crafted & one-of-a-kind goods and gifts.

Gifts & Floral
Confections
Home Decor
